DELTAPATENTS WELCOMES YOU

Why DeltaPatents?

DeltaPatents is a **patent attorney firm** based in the Netherlands with a passion for quality. We provide the highest quality advice and service to public and private companies at various stages of growth from start-up to Fortune 500. All our patent specialists have a deep technological knowledge and extensive industrial experience at companies like Philips, NXP, ASML, AstraZeneca and Shell. Through our education activities, we stay ahead in terms of law changes, case law and procedural requirements.

We are proud to be a leading training organization for the **European Qualifying Examination (EQE)**. Our renowned courses can be followed throughout Europe. We are the only training organization with a complete range of courses and high quality training material for the EQE. The knowledge and experience gained during more than a decade of EQE training provides a solid basis for our comprehensive range of training courses in different areas. We offer **Continuing Education of Patent Attorneys** (e.g. patent law update course, a Unitary Patent course, and various IP master classes). For **R&D** (R&D managers, researchers, developers, inventors, entrepreneurs, IP management, IP coordinators and tech-transfer officers), we provide targeted IP tutorials, a Portfolio and Strategy course, and several workshops.

“It was a pleasure to study with such a skilled and nice instructor”

Our **blogs** keep you up-to-date on the EQE, European patent law, in particular case law, and progress of the Unitary Patent Court (UPC) and the Unified Patent.

In 2006 we started **training IP support staff**, culminating in a full training program preparing for the official Dutch Formalities Officers exam. The training modules are now offered throughout Europe.

Our training focuses on giving insight and understanding, and ensuring that the acquired knowledge can be practically applied. Unique for DeltaPatents is that we thoroughly train and guide our tutors. For our tutors, training is a profession, mastered by teamwork and frequent involvement in courses. We take feedback of attendants seriously and act on it. For us, quality and customer satisfaction are essential.

DeltaPatents' personal touch

We believe in teaching and treating candidates with a personal touch. You will be trained in small groups, giving ample opportunity to discuss unclear issues in more detail and get personal assistance.

Hospitality is important to us. For candidates staying in Eindhoven for a couple of days, we always organize a social event, such as a dinner or a trip to a local place of interest. We welcome contact (e.g. via e-mail, telephone or video chat) with our tutors to ask follow-up questions, to clarify course materials or to report mistakes.

IP TUTORIALS AND WORKSHOPS

2-DAY CLAIM DRAFTING

ELECTRICITY-MECHANICS

Objective

The claims are at the heart of a patent – mistakes here can seriously affect the scope of protection, sometimes only discovered many years later. In addition, the description must be constructed to support the claims, and to provide a basis for possible future amendments. This course provides a working knowledge of patentability in Europe, in particular novelty of different forms of claims and the problem-solution approach (inventive step). Participants get a better understanding of the claim drafting process such that they can better work together with the patent attorney and they can better review his work.

Who should attend?

The course is aimed at participants with a basic patent knowledge who want to quickly improve their understanding of the claim drafting process. The course is also useful for participants who wish to get familiar with patentability requirements in Europe, in particular the problem solution approach. This course is also suitable for trainee patent attorneys, who have just started their traineeship. Please note that this course does not prepare for the European Qualifying Examination for patent attorneys (EQE). Please visit the DeltaPatents website for information on the EQE courses.

Course Language

All materials and tuition will be in English. If only Dutch speaking persons are attending the course, the tuition may be in Dutch.

Certificate

All participants will receive a certificate after attending the course.

Course Date and Location

This course will not be offered on the open market. You can contact us for an in-house option.

Subsequent training

Those who desire to establish basic knowledge in intellectual property (such as trainee patent attorneys, IP coordinators, but also inventors) we recommend following our **3-day Patent Tutorial**. A detailed brochure can be downloaded from www.deltapatents.com.

EP-wide in-house training

Training locations

We do not only provide training in our base in Eindhoven, The Netherlands, but many of our training modules are available at several locations in Europe to minimize your travel costs.

In-house training

All courses can also be given in-house. If required, a module can be tailored to your local organizational needs. Please contact us if you are interested in inviting us to your office.
